Yachting Financial Solutions (Ireland) DAC and the YFSOL Partnership

Our terms and conditions

Background

Established in 2007, Yachting Financial Solutions (Ireland) DAC is a company incorporated and regulated in the Republic of Ireland providing long-term financial services and solutions (minimum 5 to 10 years) to superyacht crew throughout the world. Yachting Financial Solutions works in conjunction with the YFSOL Partnership, which provides life mentoring and motivational coaching, to deliver financial measures exclusively to superyacht crew worldwide. Both businesses work together to offer a highly personal long-term service principally online from our office in Ireland.

About us....

Working with yacht crew since 1996, our experience has led us to develop our very own VPC (vehicle/plan/commitment) programme. This long-term programme enables us to work together with superyacht crew to build their own, dignified exit plans from yachting on their own terms over five- to 20-year time frames and then to move onto their ideal life. Yachting Financial Solutions provides the financial vehicles, administration and client services. The YFSOL Partnership provides the mentoring and motivational coaching to ensure that our clients remain committed to their plan and achieve their ideal lives.

Regulatory Status

Yachting Financial Solutions (Ireland) DAC is regulated by the Central Bank of Ireland no 50057 to provide insurance products and life assurance-based investments. Address: Central Bank of Ireland, North Wall Quay, North Dock, Dublin, D01 F7X3, Republic of Ireland. Phone + 353 1 224 6000

Objectives

Our objective is to ensure that as many superyacht captains, officers and crew who work for the global elite exit their life on board on their own terms and move onto an independent, dignified ideal life.

Our two entities Yachting Financial Solutions (Ireland) DAC and the YFSOL Partnership, working side by side, ensure that all our clients not only are working to a plan and have received suitable financial vehicles, but also that they keep on track through continuous mentoring and encouragement.

Yachting Financial Solutions (Ireland) DAC is an independent financial entity that is not tied to a particular life assurance company and our clients are provided with the best possible long-term investment solutions for yacht crew.

Through our initial VPC programme conversations we are doing our utmost to provide clients with solutions that are in line with their requirements. Any plan/roadmap written by Yachting Financial Solutions and the long-term investments recommended (at least five to 10 years) will be based on what the client said that they required during their initial conversations and subsequently agreed after in-depth discussion and review of their report/roadmap.

If subsequent to investing the client has a change of plan and decides the investments are no longer suitable, Yachting Financial Solutions (Ireland) DAC and the YFSOL Partnership cannot and do not accept responsibility. We never recommend short-term investments. In some long-term financial vehicles (five or 10 years) the full investment value (as per the policy conditions) may not be available for withdrawal in the early years.

EU Environmental, Social and Corporate Governance Notice

On 25 September 2015, the UN General Assembly adopted a new global sustainable development framework: the 2030 Agenda for Sustainable Development (the '2030 Agenda'), which has at its core the Sustainable Development Goals (SDGs).

This transition to a low-carbon, more sustainable, resource-efficient and circular economy in line with the SDGs is key to ensuring long-term competitiveness of the economy of the European Union.

Yachting Financial Solutions is a company that is fully committed to reducing the impacts of climate change, to environmentally friendly and sustainable investment and the UN sustainable development goals. In line with REGULATION (EU) 2019/2088 we always consider and factor into our investment advice or choice of fund managers the principal adverse impacts on sustainability factors.

Pre-contractual disclosures: As required by Regulation (EU) 2019/2088 Yachting Financial Solutions also disclose (a) the manner in which sustainability risks are integrated into our investment or insurance advice and (b) the result of our assessment of the likely impacts of sustainability risks on the returns of the financial products we advise on.
