An out of pocket maximum is protection for you against high medical costs from your benefits which are listed at 90%. The 10% that you pay yourself is your out of pocket expenses. Once your out of pocket costs equal the maximum indicated, your benefits that were at 90% are switched to 100% for the remainder of the policy year (unless where indicated). For Premier Plans out of pocket while technically possible is not practical due to the 100%. The only area where a maximum out of pocket could be reached is in the US prescriptions for brand name drugs. All other qualified benefits are at 100%.
